

**Organization and Procedures Manual for the Insulated
Conductors Committee (ICC)**

Insulated Conductors Committee (ICC) Organization and Procedures Manual

1.0 Introduction

1.1 Role of Standards Development and these Procedures

In today's technological environment, standards play a critical role in product development and market competitiveness. In the IEEE, the responsibility for how a standard originates and evolves is managed by a Sponsor. It is essential in the management of a standard's development to avoid any actions by the Sponsor or the participants that result in a violation of procedures. These procedures establish the necessary framework for a sound standardization process.

1.2 Conduct

Meeting attendees and participants in standards activities shall demonstrate respect and courtesy toward each other and shall allow each participant a fair and equal opportunity to contribute to the meeting discussion. While participating in IEEE standards development activities, all participants, including but not limited to, individuals, entity representatives, entity members, entities participating directly in the entity process, and entities participating indirectly in the individual process shall act in accordance with all applicable laws (nation-based and international), the [IEEE Code of Conduct](#), the [IEEE Code of Ethics](#), and with [IEEE-SA Standards Board Bylaws](#) (see *IEEE-SA Standards Board Bylaws* Clause 5.2.1 on "Participation in IEEE standards development") and [IEEE-SA Standards Board Operations Manual](#).

1.3 Modification to these Procedures

The official policies of this Sponsor are those that have been accepted by the IEEE-SA Standards Board based on the recommendation of the Audit Committee (AudCom), and are available online on the [IEEE-SA Standards Board AudCom website](#). No other copy shall be designated as the official copy. Any changes that the Sponsor desires to make to the procedures shall not be valid until revised policies have been recommended for acceptance by AudCom and accepted by the IEEE-SA Standards Board.

None of the rules or requirements in these policies and procedures may be suspended.

1.4 Hierarchy

Participants engaged in the development of standards shall comply with applicable federal, state, and international laws. In addition, for standards matters, the latest versions of several documents take precedence over this document, in the following order:

[New York State Not-for-Profit Corporation Law](#)

[IEEE Certificate of Incorporation](#)
[IEEE Constitution](#)
[IEEE Bylaws](#)
[IEEE Policies](#)
[IEEE Board of Directors Resolutions](#)
[IEEE Standards Association \(IEEE-SA\) Operations Manual](#)
[IEEE-SA Board of Governors Resolutions](#)
[IEEE-SA Standards Board Bylaws](#)
[IEEE-SA Standards Board Operations Manual](#)
[IEEE-SA Standards Board Resolutions](#)

Robert's Rules of Order Newly Revised (RONR) is the recommended guide on questions of parliamentary procedure not addressed in these procedures.

1.5 Fundamental Principles of Standards Development

These Policies and Procedures outline the orderly transaction of standards activities of Insulated Conductors Committee (ICC). Hereinafter referred to as “the Sponsor” For the development of standards, openness and due process shall be applied, which means that any person with a direct and material interest who meets the requirements of these Policies and Procedures has a right to participate by:

- a) Expressing a position and its basis,
- b) Having that position considered, and
- c) Appealing if adversely affected.

Due process allows for equity and fair play. In addition, due process requires openness and balance (i.e., the standards development process should strive to have a balance of interests and not to be dominated by any single interest category). However, for the IEEE Standards Sponsor ballot, there shall be a balance of interests without dominance by any single interest category.

1.6 Definitions

Written communication includes but is not limited to meeting minutes, letter, email, and fax.

Sponsors of IEEE standards projects are committees that are responsible for the development and coordination of the standards project and the maintenance of the standard after approval of the standard by the IEEE-SA Standards Board. (see *IEEE-SA Standards Board Bylaws* Clause 5.2.2 on “Sponsors”).

Responsible Subcommittee is an optional subgroup of the Sponsor with delegated responsibility for approving the submission of PARs and Sponsor ballots. Responsible Subcommittees assist the Sponsor committee in the control and management of a large scope of work involving multiple working groups. A PAR study group or a working group (WG) is not a Responsible Subcommittee.

Administrative subgroup (e.g., AdCom or ExecCom) is an optional subgroup of the Sponsor responsible for specified activities and decisions. An Executive Committee can include all the voting members of the Sponsor committee.

A *participant* is an individual involved in the standards development process (see *IEEE-SA Standards Board Bylaws* Clause 5.2.1 on “Participation in IEEE standards development”).
NOTE: Participants can be members or non-members of IEEE, IEEE-SA, or the Sponsor.

A *non-member* is a participant who has not satisfied the criteria for membership defined in Clause 4.2.

A *member* is a participant who has satisfied the criteria for membership defined in Clause 4.2. A member is eligible to be listed on the Sponsor roster.

A *non-voting member* is a member who has not satisfied the criteria for voting membership defined in Clause 4.3.

A *voting member* is a member who has satisfied the criteria for voting membership defined in Clause 4.3. A voting member can participate in Sponsor motions and any ballots of the Sponsor.

1.7 IEEE Sponsor Scope

Treatment of all matters in which the dominant factors are the design, manufacture, installation, operation, testing and maintenance of conductors, including fiber cores, having applied insulation or covering and their required materials, accessories and structures used in the generation, transmission, distribution and utilization of electric energy.

Included is the treatment of conductors, insulations, shields or screens, sheaths and coverings, accessories, structures, tests and measurements and other components for insulated conductor application. Insulations that are an integral part of machinery, such as magnet wire, are excluded.

Also included is treatment of the insulated conductors and facilities required for cable systems at power generating stations, substations, transmission, distribution and utilization levels, and cable and cable systems for special purposes or applications, including all cables identified in the National Electrical Code and associated documents, but not excluding international standards, as necessary to further the proper development of products specified in the first paragraph.

Joint or coordinated treatment of certain subjects or applications as it relates to insulated conductors may be required when the subject or application is covered by another Society or Committee having a particular scientific interest or a specific emphasis on particular materials or requirements of the application. This coordinated effort includes similar or identical standards development work of recognized international organizations.

The ICC currently has six technical subcommittees and one administrative subcommittee. The ICC Subcommittees and scopes are provided in the following table:

<i>Subcommittee Designation</i>	Subcommittee Name	Scope
<i>A</i>	<i>Cable Construction and Design</i>	<i>All issues related to materials, construction, design and manufacturing of insulated cables.</i>
<i>B</i>	<i>Cable Accessories</i>	<i>All issues related to cable terminations, joints, junctions, and ancillary cable equipment.</i>
<i>C</i>	<i>Cable Systems</i>	<i>All issues related to installation and operation of cable systems, and all testing and diagnostics of cables tested in the factory/laboratory and cable systems tested under controlled conditions such as pre-qualification tests.</i>

The Sponsor Chair shall appoint the initial Chair of a new Working Group. Voting membership shall be granted automatically to those entities attending the first meeting of a newly chartered Working Group upon their request, provided they fulfill the requirements of the Clause 5.2.1 “Participation in IEEE standards development” of the *IEEE-SA Standards Board Bylaws*, as applicable for Working Groups using the entity method.

5.5 PAR Development

When a proposal comes before a Sponsor concerning a standards development project, the Sponsor may form a PAR Study Group or may task an existing Working Group to examine the proposal and, if the proposal merits formation of a project, draft a Project Authorization Request (PAR) for consideration by the Sponsor.

The *IEEE-SA Standards Board Operations Manual* states, under “Duties of the Sponsor” the following mandatory requirement: “Submit a properly completed Project Authorization Request (PAR) for IEEE-SA Standards Board approval within six months of the first decision to initiate the project.”

5.5.1 PAR Study Group

A PAR Study Group is formed as a subgroup of the Sponsor, and is subject to all relevant operating procedures concerning subgroups of the Sponsor and parent bodies, including the IEEE-SA Standards Board.

After the PAR Study Group recommendations have been considered by the Sponsor, and the PAR approved by the IEEE-SA Standards Board (if applicable), the Sponsor should disband the Study Group.

5.5.2 Criteria for Consideration of a PAR by the Sponsor

The Sponsor should consider, and the PAR Study Group or Working group should therefore address, the following issues when evaluating a project proposal:

- a) Potential market acceptance of the standards project, including technical feasibility
- b) Relationship to related standards, if known, including its distinct identity from other projects
- c) Viable volunteer leadership and participation
- d) Realistic scope and objectives

5.5.3 Participation and Voting

Any participant in attendance (for a PAR Study Group or Working Group developing a PAR under the individual method) or entity, as defined in Clause 5.2.1.2 “Membership requirements

for standards developed under the entity method” in the *IEEE-SA Standards Board Bylaws* (for a PAR Study Group or Working Group developing a PAR under the entity method) may vote on motions in a PAR Study Group or Working Group related to development of a PAR. Approval shall be by a greater than 50% approval vote of those present and voting either “approve” or “disapprove.”

5.5.4 Submission of a PAR to the Sponsor

The PAR Study Group or Working Group shall report its recommendations on the formation of the project to the Sponsor. The deliverable from the PAR Study Group or Working Group to the Sponsor should be a report addressing the criteria for consideration and, if appropriate, a draft PAR. The report should include a roster of participants and minutes.

5.6 Other Subgroups

The Sponsor may form and disband other subgroups (e.g., Technical advisory groups, ad hocs, and standing committees) with approval by a *majority* vote of the Sponsor. The charge to the subgroup shall clearly state which of the following complementary activities is appropriate:

- 1) The subgroup is responsible for the definitive content of one or more documents and for responding to views and objections thereon. Such subgroups shall maintain a membership roster and shall comply with the provisions for preparing standard(s).
- 2) The subgroup is responsible for assisting the Sponsor (e.g., drafting all or a portion of a document, drafting responses to comments, drafting public statements on standards, or other purely advisory functions).

The Sponsor shall outline all expectations with respect to how the subgroup shall function, including scope of work, deliverables, membership, voting in the subgroup, and parliamentary procedures for approval to move any deliverables to the Sponsor for action.

6.0 Meetings

Sponsor meetings may be conducted exclusively via electronic means or in-person or in-person with one or more participants contributing via electronic means. Sponsor meetings shall be held, as decided by the Sponsor Chair, or by petition of 5 or more voting members, to conduct business such as making assignments, receiving reports of work, progressing draft standards, resolving differences among subgroups, and considering views and objections from any source. A meeting notice shall be distributed to all members at least 30 days in advance of a face-to-face meeting and at least 15 days in advance for an electronic (including teleconference) meeting. A meeting agenda (including participation information) shall be distributed to all members at least 10 days in advance of a face-to-face meeting, and at least 5 days in advance for an electronic meeting. Meetings of subgroups may be held as decided upon by the members or Chair of the subgroup. Notification of the potential for action shall be included on any distributed agendas for meetings.

All IEEE Standards development meetings are open to anyone who has a material interest and wishes to attend. However, some meetings may occur in Executive Session (see Clause 6.2).

6.1 Quorum

A quorum shall be identified before the initiation of Sponsor business at a meeting, but if a quorum is not present, actions may be taken subject to confirmation by letter or electronic ballot, as detailed in Clause 7.4. When the voting membership is less than 50 voting members, a quorum shall be defined as a majority of the current total voting membership. When the voting membership is 50 or more voting members, a quorum shall be defined as 10% of the current total voting membership or 26, whichever is greater. Voting members who recuse themselves shall not be counted in the equation to determine whether a quorum exists.

6.2 Executive Session

Meetings to discuss personnel or sensitive business matters (e.g., the negotiation of contracts), or for other appropriate non-public matters (e.g., the receipt of legal advice), may be conducted in Executive Session.

The matters discussed in executive session are confidential, and therefore, attendance at the Executive Session shall be limited to those with governance authority, outside advisors (e.g., lawyers or consultants) where necessary to provide professional guidance, and select IEEE-SA staff who may have information or a perspective relevant to the subject matter discussed in Executive Session. An individual may be invited to join for a portion of the discussion and then excused at the appropriate time. In each case, except as authorized by the Sponsor, participants in an Executive Session are prohibited from discussing or disclosing any information presented and discussed during such Executive Session to a third party or other person not present during the Executive Session, and shall not continue to discuss such matters after the Executive Session has adjourned.

Executive Sessions should be conducted face-to-face (in person) to provide the greatest assurance that the content of such Executive Sessions will be kept confidential. However, when necessary, Executive Sessions may include participants who participate by teleconference provided such persons agree not to disclose any information so discussed, and agree that they will participate in such conference in a manner that does not result in third parties gaining access to such discussions or information.

6.3 Meeting Fees

The Sponsor may charge a meeting fee to cover the expenses of the Sponsor. The fee shall not be used to restrict participation by any interested parties. The Sponsor Officers shall set the meeting fees in consultation with those planning a particular meeting.

Everyone who attends a meeting, except for those specifically excluded due to hardship, shall pay the meeting fee. In the event that a member of the Sponsor has a financial difficulty and is unable to pay the meeting fee, the member may apply to the Sponsor Chair for a partial or

complete waiver of the meeting fee. The Chair and Treasurer shall make the decision to grant such relief. These discussions shall remain private.

6.4 Minutes

The minutes shall record the essentials in concise format, including the following:

- a) Name of group
- b) Date and location of meeting
- c) Officer presiding, including the name of the secretary who wrote the minutes
- d) Meeting participants, including affiliation and voting member status at the end of the meeting.
- e) Call to order, Chair's remarks
- f) Reminders of IEEE policies, such as Patent policy, and Copyright policy
- g) The fact that a Call for Patents occurred and any responses made to such Call
- h) Approval of minutes of previous meeting
- i) Technical topics
- j) Brief summary of discussions and conclusions
- k) Motions exactly as they are stated, including the names of mover and seconder, and the outcome of each motion
- l) Technical topics
 - 1) Brief summary of discussions and conclusions
 - 2) Motions exactly as they are stated, including the names of mover and seconder, and the outcome of each motion
- m) Action items
- n) Items reported out of executive session
- o) Recesses and time of final adjournment
- p) Next meeting—date, time, and location

All submissions, presentations, and reports considered during the meeting shall be referenced in the minutes, identifying the source of the submission. URLs should be provided where possible.

The following shall not be recorded in minutes:

- Transcriptions of detailed discussions
- Attributions of comments to specific participants

7.0 Voting

7.1 Approval of an Action

Approval of an action requires approval by a majority (or two-thirds) vote as specified below in 7.1.1 (majority), and 7.1.2 (two-thirds). The “majority, two-thirds vote” is defined as one of the following:

- a) At a meeting (including teleconferences) where quorum has been established, a vote carried by majority (or two-thirds) approval of the votes cast (i.e., Approve or Do Not Approve votes, excluding abstentions) by the voting members in attendance.
- b) By electronic means (including email), a vote carried by majority (or two-thirds) of the votes cast (i.e., Approve or Do Not Approve votes, excluding abstentions), provided a majority of all the voting members of the Sponsor responded.

7.1.1 Actions Requiring Approval by a Majority Vote

The following actions require approval by a majority vote:

- a) Formation or modification of a subgroup, including its procedures, scope, and duties
- b) Disbandment of subgroups
- c) Approval of minutes
- d) Delegation to a subgroup for Authorization for submittal of a PAR, modification of a PAR, withdrawal of a PAR, or Sponsor balloting
- e) Approval to co-sponsor a project (PAR).
- f) Acceptance of the activity(ies) of the subgroup following conclusion or disbanding.

7.1.2 Actions Requiring Approval by a Two-thirds Vote

The following actions require approval by a two-thirds vote:

- a) Adoption of new or revised Sponsor procedures,* interest categories, or revisions thereof
- b) Approval of public statements
- c) Approval of change of the Sponsor scope*
- d) Approval of termination of the Sponsor*
- e) Removal of an officer except the Chair

* Following Sponsor approval, items a, c, and d require notice to the IEEE-SA Standards Board.

7.2 Sponsor Approvals

7.2.1 Moving a Draft Standard to Sponsor ballot

Moving a draft standard to Sponsor ballot requires approval of the Sponsor. Approval by the Sponsor shall be limited to conducting a procedural review. The Sponsor may delegate this approval authority to a subgroup.

7.2.2 Change in Scope of a Standards Project

Sponsor approval is required for any substantive change in the scope of a standard or project. The Sponsor may delegate this approval authority to a subgroup. Requested changes shall be reviewed to ensure that the standards project remains within the scope of the Sponsor and shall also be reviewed to determine if the standards project requires a modified PAR.

7.3 Proxy Voting

A subgroup chair that is an ex-officio member of the Sponsor by virtue of that office may designate another officer of the subgroup to act as their proxy when they are unable to attend a meeting of the Sponsor.

The subgroup chair shall inform the Sponsor chair of this proxy assignment prior to the meeting at which it is in effect. The Sponsor chair shall announce the proxy assignment at the start of the meeting. The proxy assignment lasts for the duration of that meeting.

The proxy may vote on behalf of the subgroup chair during that meeting.

7.4 Voting Between Meetings

At the discretion of the Chair, the Sponsor shall be allowed to conduct voting between meetings by the use of a letter or electronic ballot. If such actions are to be taken, they shall follow the rules of [IEEE Bylaw I-300.4\(5\)](#).

8.0 Communications

All correspondence on behalf of the Sponsor shall contain identification of the Sponsor as the source of the correspondence.

8.1 Formal Internal Communication

If correspondence between subgroups involves issues or decisions (that is, non-routine matters) affecting other subgroups, copies shall be sent to all affected subgroup Chairs and the Sponsor officers.

8.2 External Communication

Inquiries relating to the Sponsor shall be directed to the Chair, and members shall so inform individuals who raise such questions. All replies to inquiries shall be made through the Chair.

8.3 Public Statements for Standards

All Sponsor public communications shall comply with the policies of the *IEEE-SA Standards Board Operations Manual*.

Individuals making public statements that have not been approved by the Sponsor shall state that they are speaking as individuals, and their views do not necessarily represent the views of the Sponsor, IEEE-SA, or IEEE (see clause 5.2.1.6 “Official statements” in the *IEEE- SA Standards Board Bylaws*).

8.3.1 Sponsor Public Statements

Sponsor public statements shall not be released without prior approval as per Clause 7.1.2 of these procedures.

8.3.2 Subgroup Public Statements

Subgroup public statements shall not be released without prior approval of the subgroup. Such public statements also require approval of the Sponsor.

Subgroup public statements shall be identified in the first paragraph of the public statement as being specifically the position of the subgroup, and do not necessarily represent the views of the Sponsor, IEEE-SA, or IEEE. These statements shall be issued by the subgroup Chair and shall include the Sponsor Chair in the distribution. Such statements shall not bear the IEEE, the IEEE-SA, or the Sponsor logos.

8.3.3 Public Statements to be Issued by other Entities

If the Sponsor wishes to go to another IEEE entity (as defined in Section [15](#) of the IEEE Policies) to have that entity offer a public statement on a standards matter, they shall do so only after agreement from the IEEE-SA Standards Board and approval from the IEEE-SA Board of Governors. Upon Sponsor approval, proposed public statements that need to be issued by other IEEE entities shall be forwarded to the IEEE-SA Standards Board Secretary for further action.

8.4 Informal Communications

Informal communications shall not imply that they are a formal position of the IEEE, the IEEE-SA, or the Sponsor.

8.5 Standards Publicity

The Sponsor is encouraged to prepare press releases and other forms of publicity to promote their activities. Please see clause 5.1.4 “Standards publicity” of the *IEEE-SA Standards Board Operations Manual* for further instructions.

9.0 Appeals

Technical discussions and decisions occur within the Sponsor subgroup (e.g., Working Group). Any person dissatisfied with a technical decision shall follow the approved procedures for providing technical input to the subgroup that made the decision, including but not limited to making a technical comment during the applicable comment submission and/or balloting period.

The *Sponsor* recognizes the right of appeal on procedural grounds. Procedural concerns within a Sponsor subgroup shall be first presented to the subgroup or Working Group for resolution. If the procedural concern is not resolved after presentation to the subgroup for resolution, the complaint regarding any procedural action or inaction on the part of the *Sponsor*, or a *Sponsor's* subgroup, shall be presented to the *Sponsor* for resolution. If the party bringing the complaint determines that the *Sponsor's* proposed resolution is unacceptable, such party can file a procedural appeal with the Sponsor.

Appeals to the Sponsor shall be addressed as follows:

The appellant shall file a written appeal to the Sponsor Chair within 30 days of the event (action or inaction). The written appeal shall state the nature of the issue, including any adverse effects; the clause(s) of the procedures that are at issue; summarize previous attempts to resolve the issue with the subgroup or Working Group that is responsible for the standard including the outcome/decision of each attempt; and propose specific remedies that would satisfy the appellant's concerns. The appellant shall provide any supplemental information necessary to support the claims made in the appeal.

Upon receiving a written appeal, the Sponsor Chair shall form an Appeal Committee consisting of at least five members of the Sponsor, none of whom were directly involved in the matter in dispute, and who will not be materially or directly affected by any decisions made concerning the dispute and shall appoint a chair. The chair of the Appeal Committee shall be an officer of the Sponsor, if possible. The Appeal Committee shall review the written appeal and decide, within 45 days of the submission of the written appeal, whether or not to recommend to the Sponsor that an Appeal Panel be formed to consider the appeal. The Appeal Committee may try to resolve the issue with informal discussions with the concerned parties prior to making a decision about an Appeal Panel. The Appeal Committee may decline to recommend an Appeal Panel if (i) the appeal deals with ethical issues, (ii) the appeal deals with technical issues, or (iii) the appellant has not attempted to first resolve the issue informally with the subgroup or Working Group that is responsible for the standard. If the Appeal Committee declines to recommend an Appeal Panel based on these criteria, the Appeal Committee shall provide a written communication to the *Sponsor* Chair and the appellant outlining the reason for its decision.

If the Appeal Committee determines that the appeal submission is acceptable, the *Sponsor* Chair shall form an Appeal Panel consisting of an Appeal Panel Chair and two other members, none of whom were directly involved in the matter in dispute, and who will not be materially or directly

affected by any decisions made concerning the dispute. The Appeal Panel shall have at least two members that are acceptable to both the appellant and the appellee.

The Appeal Panel shall hear the appeal during a time convenient to all parties (with at least two weeks' notice to all concerned parties), and, if possible, prior to the next regular meeting of the Sponsor. The appeal may be conducted in person or by telephone conference. Failure of the appellant to participate in the hearing (barring unforeseen technical difficulties) shall constitute a withdrawal of the appeal.

A written decision shall be rendered by the Appeal Panel within 30 days of hearing the appeal and communicated to the parties concerned, including the Chair of the Appeal Committee and the Sponsor Chair.

Sponsor procedural appeals shall be conducted as follows:

The number of participating (i.e., speaking) representatives for each of the parties to the appeal is limited to a maximum of three (3). Other individuals may attend the hearing, but will not be permitted to address, or be addressed by, the Sponsor's Appeal Panel or either of the parties to the appeal at any time (including during the question and answer period). No recordings or verbatim transcriptions of the hearing are allowed, except by the IEEE-SA at its sole discretion.

The Sponsor Appeal Panel may call an Executive Session before, during the course of, or following an appeal hearing to consider its action on a specific appeal.

No party to an appeal may communicate with any member of the Sponsor Appeal Panel regarding the appeal while the matter is pending (i.e., from the time of filing of the appeal brief to finalization of the Sponsor Appeal Panel decision).

The appellant has the burden of demonstrating adverse effects, improper action(s) or inaction, and the efficacy of the requested remedial action. Each party may adduce other pertinent arguments, and members of the Sponsor Appeal Panel may address questions to individuals. The Sponsor Appeal Panel shall only consider documentation included in the appeal brief and reply brief, unless

- a) Significant new evidence has come to light; and
- b) Such evidence reasonably was not available to the appellant or appellee, as appropriate, at the time of filing; and
- c) Such evidence was provided by the appellant or appellee, as appropriate, to the other parties as soon as it became available.

Prior to the hearing, the members of the Sponsor Appeal Panel may convene to review the ground rules before the participants appear.

If, after completion of the Sponsor's appeals process, the party bringing the complaint determines that the Sponsor's Appeals Panel decision is unacceptable, such party can file a procedural appeal with the IEEE-SA Standards Board as described in Clause 9 on "Appeals" of the *IEEE-SA Standards Board Operations Manual*.
