

Prof. Jovica V. Milanović,
Vice president, Publications

Department of Electrical and Electronic Engineering,
The University of Manchester, United Kingdom
milanovic@manchester.ac.uk

We are soliciting applications/nominations from IEEE PES members of good standing for the position of Editor-in-Chief of IEEE Transactions on Smart Grids. The position will be effective from 1st November 2024. The term of the appointment will be for three years with a possibility of extension for another three year term.

The IEEE Transactions on Smart Grid is a cross disciplinary journal aimed at disseminating results of research on and development of the smart grid, which encompasses energy networks where prosumers, electric transportation, distributed energy resources, and communications are integral and interactive components, as in the case of microgrids and active distribution networks interfaced with transmission systems. The journal publishes original research on theories and principles of smart grid technologies and systems, used in demand response, Advance Metering Infrastructure, cyber-physical systems, multi-energy systems, transactive energy, data analytics, and EV integration. Surveys of existing work on the smart grid may also be considered for publication when they propose a new viewpoint on history and a challenging perspective on the future of intelligent and active grids.

Application/nomination materials must include the following information.

Part A: The essential minimum requirements that all applicants should fulfil, and which should be covered by enclosed CV include

- Minimum of 15 years of academic experience as full time academic, or equivalent industrial experience as industry technical specialist.
- Must be an active IEEE Senior Member, IEEE Fellow or IEEE Life Fellow
- It is expected that the applicant has published 15 or more journal papers in the last 5 years of which majority should be in IEEE Transactions on Smart Grids (number of IEEE journal publications per year over past 5 years should be provided)
- Substantial involvement in national and international working groups, task forces, standardisation committees, industry advisory bodies, etc.
- Substantial involvement in research evaluation as a reviewer or panel member.
- Substantial number of invitations to give technical or academic presentations to industry or academia.

Part B: Application/nomination materials must include the following information:

1. Prior service on an IEEE Editorial Board (list 3 most recent positions)
 2. Technical Committee activity (list 3 most recent activities)
 3. IEEE Region (1-10)
 4. Profession Sector (academia, utility, manufacturer, government, vendor, research institute, other)
 5. Three to five (maximum) areas of research/professional expertise.
 6. Titles of 10 to 15 (maximum) IEEE journal papers authored by the nominee in the last 5 years of which substantial number, if not majority, should be in IEEE Transactions on Smart Grids. For candidates from industry patents or technical reports can be listed to compensate for the lack of journal papers.
 7. Names and contact information of three (3) references
- Points 1-7 above should be addressed in a separate document not exceeding 2 pages.
8. A resume/CV (max 2-pages) addressing the essential criteria specified in Part A above.

The deadline for receipt of all materials is 28th July 2024. The CV (max 2 pages) and application letter (max 2 pages) should be sent as a single pdf document to: **PESEICapp@ieee.org with the transactions title you are applying or being nominated for and your name in the following format TSG-EIC Application-Name Surname.pdf**

Part C: The process:

An EIC search committee comprising of two Vice Presidents from PES, all EICs from PES journals and a nominee from PES President will review all the nominees/applicants. Shortlisted candidates will be interviewed further by the committee to assess their leadership visions and strategies for the journal. The committee will make the recommendation to the PES President who will confirm the appointment after endorsement from the ExCom/Governing Board.

Best regards,

Jovica V. Milanović, VP Publications, IEEE Power & Energy Society
