

IEEE POWER & ENERGY SOCIETY

sets the industry standard for engagement, education, and development as the premier provider of scientific and engineering information on electric power and energy.

Events

IEEE PES proudly sponsors and hosts over 30 global conferences and meetings annually. Attending these events is an effective way to engage with industry leaders, stay ahead of the trending topics, and network with fellow engineers. Professional Development Hours (PDHs) credit for IEEE PES event attendance can also be earned.

Our website contains our full portfolio of events, open calls for participation, sponsorship, and exhibition opportunities.

IEEE PES Flagship Events

IEEE PES GridEdge Technologies
Conference & Expo

Education

IEEE PES offers the following live and on-demand education courses for power and energy professionals' professional growth and development. Where applicable, Continuing Education Hours (CEUs) are available.

PES Live Online

Virtual presentations covering, the current power system infrastructures and technological advancements in energy resources including environmental sustainability and climate change, as they relate to electric power system operation and planning.

PES On-Demand

Previously recorded and self-paced industry courses, including the PES interactive courses, are available in the IEEE PES Resource Center.

PES In-Person

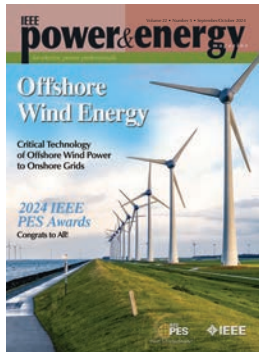

At IEEE PES conferences, in-person tutorials are available as direct, face-to-face classroom learning sessions where industry leaders guide students through specific topics such as the Plain Talk About the Electric Power Industry series and other trending power-related topics.

ieee-pes.org

Publications

At IEEE Power & Energy Society (PES), our members receive exclusive and complimentary full digital access to the following leading industry publications, providing them with the latest information and content on critical topics related to the electric power industry.

**NEW! IEEE ENERGY SUSTAINABILITY
MAGAZINE LAUNCHING MAY 2025**

IEEE Open Access Journal of Power and Energy (OAJPE) is a peer-reviewed, open-access technical journal that covers academic and practice-oriented subjects in electric power.

Transactions is a series of six peer-reviewed journal articles on Energy Conversion, Power Delivery, Power Systems, Smart Grid, Sustainable Energy and Energy Markets, and Policy and regulation.

Technical Activities Committees

The **IEEE PES Technical Activities Committees (TAC)** and their Subcommittees are the working groups that lead the creation and maintenance of the standardization of technical documents related to the TAC's scope of activity, including Technical Reports, White Papers, and notably nearly 50% of IEEE Standards annually.

The latest IEEE Standards produced by the TAC, upcoming committee meetings, white papers, and technical reports can be found on our website.

IEEE PES AWARDS

Each year, leading PES members and industry leaders are honored for their notable contributions to power and energy through distinct society awards.

IEEE Power & Energy Society SCHOLARSHIP PLUS INITIATIVE[®]

Preparing the Next Generation of Power & Energy Engineers

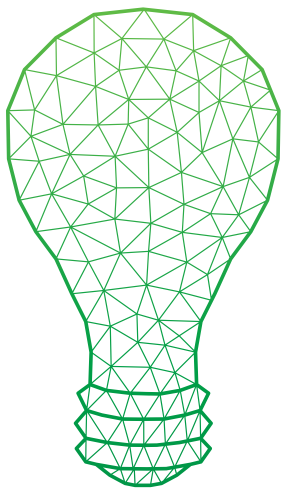

The IEEE PES Scholarship Plus Initiative awards promising students annual financial assistance in their undergraduate studies.

ieee-pes.org

Join IEEE Power & Energy Society & Enjoy the Following Member Benefits & more!

- **IEEE DataPort** – New! Free individual subscription and access to over 7,000 datasets, more than 500 are related to Power!
- **IEEE PES Magazines** – Exclusive digital subscriptions to IEEE Power & Energy, IEEE Electrification magazine, and the new IEEE Energy Sustainability magazine, due to launch in May 2025.
- **PES Digital Library** – Complimentary access to the PES Digital Library in IEEE Xplore including active PES-produced IEEE Transactions and legacy titles.
- **PES Awards & Scholarships** – Exclusive member opportunities.
- **PES Events** – Reduced member rates for all PES events, including the PES flagship conferences, IEEE PES Grid Transmission & Distribution Conference & Expo, IEEE PES Grid Edge Conference & Expo, and IEEE PES General Meeting.
- **IEEE PES Resource Center** – Access to the PES digital catalog of education credits (CEUs & PDHs) courses including online products, webinars, tutorials, and more!

Did you know?

IEEE offers reduced membership dues for the following special circumstances:

- Permanently Disabled
- Developing Nations
- Minimum Income
- Unemployed
- Retired
