Dear Colleagues

We are soliciting applications/nominations from IEEE PES members of good standing for the position of Associate Editor of IEEE Transactions on Power Delivery (TPWRD). The position will be effective from **January 1st, 2027,** for the initial period of 2 years.

The scope of the IEEE Transactions on Power Delivery embraces innovations in electric apparatus for power delivery with a main focus on power transmission and distribution components. It also covers apparatus modelling, analysis, implementation and application issues such as power system protection, instrumentation, communication, and grounding; electromagnetic transients and power quality; and substation automation. The Transaction's scope further includes research works leading to power engineering standards.

Part A: The essential minimum requirements that all applicants should meet and which should be covered by enclosed CV include

- Minimum of 3 years of academic experience as full time academic or 3 years of industrial experience as industry technical specialist.
- It is expected that the applicant has published 10 or more journal papers in the last 5 years of which at least 5 should be in IEEE Transactions on Power Delivery
- For applicants from industry the lack of PhD degree can be compensated by attained chartered/professional engineer status, or Senior Member of the IEEE, or equivalent.
- Involvement in national and international working groups, task forces, standardisation committees, industry advisory bodies, etc.
- Involvement in research evaluation as a reviewer or panel member.
- Invitations to give technical or academic presentations to industry or academia.
- At the time of appointment, applicants shall hold no more than **two Editorship positions** simultaneously, including the one that they are applying for.

Part B: Application/nomination materials must include the following information:

1. Prior service on an IEEE Editorial Board (list 3-5 most recent positions)
2. Technical Committee activity (list 3-5 most recent activities)
3. IEEE Region (1-10)
4. Profession Sector (academia, utility, manufacturer, government, vendor, research institute, other)
5. Three to five (maximum) areas of research/professional expertise.
6. Titles of 5 to 10 (maximum) journal papers authored by the nominee in the last 5 years of which at least 5 should be in IEEE Transactions on Power Delivery. For candidates from industry, patents or technical reports can be listed to compensate for the lack of journal papers.

7. Names and contact information of two references.
   Points 1-7 above should be addressed in a separate document not exceeding 2 pages.
8. A resume/CV (max 2-pages) addressing the essential criteria specified in Part A above.

The deadline for receipt of all materials is **29 October 2026**. The CV (max 2 pages) and application letter (max 2 pages) should be sent as a single pdf document to Tpwrd-ae-app@ieee.org with the transactions title you are applying or being nominated for and your name in the following format TPWRD-AE Application-Name Surname.pdf

Part C: The process:
The EiC, following consultations with Senior Editors and the Editor-in-Chief at Large, will shortlist candidates and provide them with detailed information on the responsibilities, expectations, and guidelines of TPWRD editorial work in late December. Upon receiving their agreement with those, the EiC will make the recommendation to the PES Vice President (Publications) who will confirm the appointment.

Best Regards

Tapan Saha
